

Addiction ... it affects us all.

In North Carolina...

2004 Population: 8,540,468

Estimated Number of Addicted People: 839,528

Estimated Number of People Affected: 4,197,640.

Thousands of families in North Carolina are touched by the darkness of alcohol and drug addiction. Nearly a million people have addiction problems in North Carolina and nearly three times as many are affected by another person's drinking. If you, a friend or family member needs help, there are resources available. The Alcohol/Drug Council of North Carolina connects these people with help and hope by linking them to treatment services and providing prevention programs, advocacy and education.
