Surgical Technology, AAS

The Surgical Technology associate degree program prepares graduates to function as a member of the surgical team. Students will learn how to prepare the operating room, including the sterile field, setting up surgical equipment, supplies, and solutions. During surgical clinical rotations, students will pass instruments, fluids, and supplies to the surgeon and prepare and manage surgical equipment. Employment opportunities include operating rooms, labor and delivery departments, outpatient surgery centers, physicians’ offices, and central supply processing units.

**Surgical Technology, AAS | A45740**

- Credits required for a degree: 66
- Demonstrate surgical conscience
- Perform surgical technologist skills
- Integrate concepts from various scientific fields of study

**Admission Requirements**
